

ThermoWorks

Saf-T-Log[®]

Paperless HACCP Thermometer

Interchangeable Type K Thermocouple probe.

Instant on-screen Pass/Fail feedback.

Pre-set high and low limits for each item in your checklist.

Stores your checklist on board. Includes temperature and yes/no items. Choose corrective actions.

Up/Down buttons easily scroll through up to 300 stored items.

Rubberized seal protects against kitchen spills and splashes.

Record temps with the push of a button.

Rugged housing ensures continued daily use for years in a commercial environment.

Connects Right to Your PC

Once readings are taken in the field they are downloaded to a PC automatically when connected via USB. The data is archived and a report generated automatically with no additional user input.

Paperless! Eliminates logbook!

Measure, store, download and print temperature reports with the convenience and price of a handheld thermocouple meter. No more paper logs or complicated PDAs to train staff!
