

# Thermopen® ONE Blue

## Care and Use Card

- Open rotating probe to turn on.
- Close probe when not in use.
- Clean instrument body with damp soapy cloth and dry thoroughly after each use. (Don't use a wipe containing IPA on instrument housing).
- Don't pry, jab, or force probe tip into food.
- Don't puncture containers or lift food with probe.
- Don't rotate probe past 180°.
- Don't immerse probe into food up to hub.
- Don't allow food to collect on/around probe hub, it could wipe inside during use and work its way past the hub seal.
- Don't drop or rest on surfaces above 122°F (50°C).
- Don't overtighten battery cover screw.
